

# OUR VISION FOR THE FUTURE

We have been successfully selling the products made in Peru at craft fairs and talks around the UK, and we are also selling some of the jewellery and cards at a local outlet in Arequipa. This is a positive step, but the outlet will of course take a significant commission so in the long run, it would be much better for the project to have its own shop.

**THE VISION IS TO BUY A PROPERTY AND ESTABLISH A CENTRE, WHICH WILL INCLUDE CRAFT WORKSHOPS, A SHOP AND A CAFE.**

The rented building that the church is currently based in is very small and is unsuitable for the needs of the project and the church. There is a lack of a dedicated space to work, to store the raw materials and to store the finished products, plus a lack of disabled toilets. With such limited space, we are also unable to employ more workers. The new centre would provide training & employment for many more people with disabilities. This year we raised enough money to buy a building and are beginning the process of purchasing one. We are extremely grateful to all those groups and donors, whose generosity has made this possible.

**OUR VISION IS TO CHANGE NEGATIVE ATTITUDES TOWARDS PEOPLE WITH DISABILITIES IN THE COMMUNITY. THE NEW CENTRE WILL BE A PLACE OF HOPE, COMPASSION, LOVE AND ACCEPTANCE FOR PEOPLE ON THE MARGINS IN THE CITY OF AREQUIPA.**
